STACEY YOON

Stacey.exp@gmail.com | https://seyouny.herokuapp.com/ | https://github.com/seyouny/

Education

Full-Stack Development, August 2020
UC Berkeley Extension

Bachelor of Science: Chemistry, June 2020
University of California, Irvine - Irvine, CA

Skills

- Javascript
- Python
- React JS
- HTML (+CSS)
- Node.js
- MySQL

Projects

Bragging Rights | https://github.com/seyouny/StatsDash
- A platform for Call of Duty gamers to organize multi-game tournaments and compare their skills on a dashboard of visualized aggregated statistics.
- Utilized React.js, Call of Duty API, MySQL workbench, Sequelize, Node.js, and Express.js.

Middle|Ground | https://github.com/seyouny/MiddleGround
- Users can search by topic of interest and see news sources deemed "most reliable" by people who identify their views on a spectrum from conservative to liberal.
- Utilized Curator.io and Google Fact Check APIs, MySQL databases, Sequelize, Node.js, and Express.js.

Work&Balance | https://github.com/seyouny/JobSearchEateries/
- A web application to search for jobs and their nearby eateries
- Provides users insight to what the user's everyday lunch break might look like and areas to network.
- Utilized two third-party APIs (GitHub jobs and Google Places API), AJAX, Foundation framework, with an interactive search engine and results.

Work History

Environmental Intern, Aug 2019 to Aug 2020
Sidera Environmental – Costa Mesa, CA
- Prepared over 50 data analysis reports by obtaining stormwater samples and summarizing findings.
- Analyzed data of chemical composition from stormwater collections and identified Numeric Action Level exceedances.
- Created facility site maps via Adobe Photoshop for new clients and updated maps to reflect site changes.
